

## Replace Cover Image in Bookbin ePub

### Step 1: Create cover.png

1. Find an image or create you want to use as your cover and save to a folder.
2. Open image in pixlr.com or create a background image with size: approx 550 x 825 px
3. Add text : Title, Author
4. Save as: cover.png

Example using cover.png and adding text

### Step 2: Place cover.png into your book after creating and saving ePub:

1. Use rename to change type of file from .epub to .zip ( you must have extensions showing to do rename) eg: book.epub change to book.zip
2. Unzip the file by double clicking on file eg book.zip
3. Navigate to OPS→images folder
4. Inside images folder, rename cover.png to oldcover.png
5. Copy/paste or move your cover.png image into the OPS-->images
6. Save and close
7. Rename the books.zip file back to books.epub
